

Dear friend of The Clinic,

Today's healthcare system can more accurately be described as "sick care" – treating symptoms of disease while rarely addressing the source. What if someone told you that there's an inexpensive, easy way to prevent or reverse chronic disease that doesn't include doctor visits or pharmacy trips? Healing Through Food participants will spend an evening with Dr. Ana Negrón learning how to heal their bodies right in their own kitchens, including an educational Zoom seminar, a home-cooked whole foods plant based meal and an inspiring film.

This event raises funds to support The Clinic in Phoenixville, providing free, quality healthcare to uninsured members of the Greater Phoenixville community, which includes primary and specialty care, along with lab tests, medications and diagnostic testing. 100% of funds raised benefit this important mission. At The Clinic, we emphasize the importance of lifestyle changes in healing chronic disease in our patients, so this fundraiser supports our mission twofold.

Here's where you come in. To make this event a success, we're looking for generous patrons to support this event as a sponsor. Not only will you have a chance to get your business or message in front of our event participants and online community, you'll also be making a commitment to providing your most vulnerable neighbors with comprehensive healthcare. Please join us.
